

# CELEBRATE JULY 12TH IN WAINWRIGHT

## The Wainwright Star

VOLUME VII WAINWRIGHT, ALBERTA, WEDNESDAY, JUNE 16th., 1915 NUMBER 37

### JULY 12TH WILL BE GREAT DAY IN WAINWRIGHT

People Have Set Out To Make The Celebration Big Success

The Twelfth of July will be a great day in Wainwright for its people have set out to make it such. Preparations for the big event are now being prosecuted and every arrangement that will tend toward success is being taken in hand by the committee.

Trees lining Main street and second avenue, with bunting and flags adorning every residence, will greet the many visitors upon their arrival in Wainwright shortly after 10 o'clock on the morning of the Twelfth. Following the grand Orange procession, Sir James Outram, Bart, of Vermilion, will give the chief address of the day from the balcony of the Wainwright hotel. This will be heard by the whole army of visitors who will assemble around the hotel.

Baseball competitions, horse racing, band contests, events for cadets and girl guides and many other attractions will make up the program of the day. In the evening, a massed band concert will be given in the skating rink and following this a dance will be held in the Elite theatre. Everything that will enhance and amuse is being arranged for by the various committees. The Twelfth of July will be a great day in Wainwright.

It is expected that the special train from the east will be run so as to include Unity, Scott and Biggar.

### USUAL THURSDAY HALF HOLIDAY FOR SUMMER MONTHS

Beginning on the first Thursday in July and continuing throughout July, August and September, stores in Wainwright will close at noon on each and every Thursday. An early closing day has been observed in Wainwright during the past three years.

### SUNDAY SERVICES IN LOCAL CHURCHES

At St. Thomas' church on Sunday mornings the Rector is preaching a series of sermons on "The Lord's Prayer".

Holy Communion will be administered at the morning service next Sunday in the Anglican church.

The morning service in St. Andrews church on Sunday will be of special interest to the boys and girls. At the evening service, Mr. Murphy will take for his subject "Loneliness". All are invited.

Rev. Mr. Bosomworth, acting minister of the Grace Methodist church, will preach his last sermon in Wainwright on Sunday evening. Leaving Wainwright, he will proceed to Edson, to act in a temporary capacity for about a month. Following this, he will journey to Athabasca where he will assume a permanent charge.

### THAT OUT-OF-TOWN ORDER—GOOD BYE!

Every dollar you send out of town flies away with a value that rightfully belongs to your community. Spend it at home; with your home merchant, where its value stays with you and helps to build up your interests. When you come to think of it, there are only two kinds of dollars—the "Dollar with Wings" and the "Development Dollar." The "Dollar with Wings" goes to build up the far distant city, the Big Metropolis. The "Development Dollar" goes to build up the home town. It helps build up a nation of real men and women. Then let us make the dollars we spend "Development Dollars," hometown builders, building for us and our neighbors and our children, making our community more prosperous, more happy, more contented.

### CLINTON N. HOWARD IMPRESSED AUDIENCE AT BIG MEETING

With a modesty that was almost infectious, yet with a power that held his audience so intent that it absorbed his every word, Clinton N. Howard, talked for two solid hours in the Elite theatre on Monday evening. He dealt in general with many things; in particular he spoke of the evils of the liquor traffic, for, in the interests of the Alberta Temperance and Moral Reform League and its great prohibition campaign, it was purposely to denounce the evils of "John Barleycorn" that Clinton N. Howard, America's great orator, made his initial visit to Wainwright.

Absorbed in the text he was illustrating, this artist of oratory painted verbal pictures. They were imaginary, yet when the sketch was completed, every member of the gathering saw the picture in its true light; in the light it was painted by Clinton N. Howard and as he would have it painted. He did not tell the people anything they did not know concerning the consequences of the liquor evil for these have been told time and time again. What he did do was to tell them of its consequences in phrases that were different to those they had heard before. He told them that "John Barleycorn" must die in the style peculiar to him; in that style which has built for him a reputation from one end of the continent to the other.

He told the people that they made a mistake if they thought that the only stupendous war was the one now raging in Europe. They were wrong, he said, because war just as stupendous was raging against the liquor evil and against "John Barleycorn," who was the lead of the army. Clinton N. Howard said that from the cathedral down to the barn "Barleycorn" death was ordered the barn because the "old

nags" within, wished to free themselves from his merciless driving. "God has given the world a new conscience in the liquor question and this is what gives us power. You will never have peace until you have prohibition" said the speaker. In opening his address, Mr. Howard spoke of the attitude of the United States in the present conflict. He, like all other Americans, had been ordered by the president to be neutral. "But every true-blooded American is always ardently hoping for the success of the British cause" said Mr. Howard. This expression of the conscience of true Americans was heartily applauded by the audience.

Dr. Little acted as chairman of the evening. The meeting opened with a solo by Rev. H. Asstier, and the singing of a chorus by local prohibition followers. It closed with the singing of the national anthem.

### FORTY-NINERS ARRIVE SAFELY IN ENGLAND

Cable is Received Locally From Pte. Norman E. Cook of Wainwright

Plymouth, June 14—Arrived Safely.—Cook

Proceeding is the text of a cable received locally yesterday from N. E. Cook, of the 49th Battalion of the Canadian Expeditionary force, of which many Wainwright boys are members. It was generally thought that the boys who set sail on the Megantic, had arrived in England on Friday last, in fact, information to this effect was sent over the wires and circulated throughout the country. This information however, has since proved incorrect.

This makes the second whole battalion recruited in Edmonton to land in Britain, and the fifth unit made up partly of Edmonton men. These are the 9th battalion, now broken up among other battalions on the firing line; the 19th Alberta Dragoons, now in France; the 23rd battalion from Quebec, of which one-quarter is made up of Edmonton district men; the 31st from Calgary, about half of which is from this city; and the 49th battalion, entirely recruited here. In addition 250 men of the 51st battalion, now on their way to England.

### THAT STRAWBERRY SOCIAL

The Ladies Aid of the Presbyterian church, will hold an ice cream social on the lawn of Mrs. Elder's residence on Friday evening of this week, beginning at 7 o'clock. In case of inclement weather, the social will be held in the church.

### MISS PETERSON RECOVERS

Friends of Miss Ione Peterson will be pleased to hear that Miss Peterson has successfully undergone an operation for appendicitis, the operation being performed in the hospital of the celebrated Mayo Brothers, Rochester, Minn. Miss Peterson is expected to return to Wainwright within the next few days.

### GILT EDGE PICNIC

Should the weather prove favorable, the Wainwright ball-team will journey to Gilt Edge on Thursday to meet its aggregation in a return game. The annual picnic is being held at Gilt Edge on Thursday and it is expected that a fairly large crowd of Wainwright visitors will be in attendance.

### COUNCIL HOLDS QUIET SESSION

The council meeting held on Tuesday evening was an unusually quiet one. G. L. Gregson resigned his post as a member of the Board of Health, the resignation being referred to the committee on health, parks and cemeteries. It was decided by the council to lay off Night Watchman Primrose for 3 months. Other business transacted was of a routine character.

Members of the 50th and 51st battalions from Calgary passed through Wainwright on their way to sea port, on Thursday morning last. They stopped here long enough to change engines and to ease their tired limbs.

ADMIRAL DE LA PEYRERE  
Commander of the naval forces of France.

### Crop Prospects Never Better In 24 Years Says U.F.A. President

Reports summing up crop conditions throughout all Western Canada, agree that the general situation was never better. Seeding was completed in time, and the seed was scarcely in the ground when heavy rains fell, and the crops are uniformly a week to ten days ahead of average seasons. Reports from all parts agree that farmers have done their work better than any previous year and a higher class of husbandry is in evidence throughout the country. Pasture is in splendid conditions, and all kind of live stock are doing well. The President of the United Farmers of Alberta, says, "During a residence of 24 years in this Province, I have never seen crop prospects better than they are at present. Indeed, I would say, that I have never seen them so good."

Although a slight frost visited the district on Monday night and did a little damage to garden truck, enquires elicit the information that the growing grain has been untouched. Several degrees of frost were recorded on Monday night. Potatoes were a little "nipped" but not serious enough to warrant re-seeding.

Wonderful progress is being made by the crops in the Wainwright district and during the past few days, samples of spring wheat 30 inches high have been brought into town. Samples of rye, standing forty inches in height and ready to head out, are also to be seen in town.

### EXCHANGE WILL STIMULATE LEAVES FOR VANCOUVER

W. H. Holmes, well-known in Wainwright, who has been acting as secretary to H. A. Driggs at the provincial golf, Port Saskatchewan, for the past year, left for Vancouver on Monday last. Prior to his departure Mr. Holmes was presented with a purse containing a magnificent sum donated by the staff, as a slight recognition of esteem and regard in which they held him. The presentation was made by Mr. J. Doran.

### KENNY YARDS ARE ACQUIRED BY ATLAS LUMBER COMPANY

Arrangements have now been completed whereby the Atlas Lumber Company Ltd., have acquired the local interests of the lumber company formerly controlled by Mr. Robert Kenny. It is announced that Mr. Kenny will remain as business manager of the concern. The company will erect new offices and a cash shed at the corner of Fourth avenue and Queens-streets and will also build new lumber sheds in which to house their materials. The company has placed orders for a large consignment of lumber and also for other materials requisite to home and other building. These are expected to arrive within the next few days. Immediately following their arrival they will be placed in the new sheds.

### M. MECKLEBURG, THE CELEBRATED EYE SPECIALIST, WILL VISIT WAINWRIGHT JUNE 20th. HE WILL REGISTER AT THE WAINWRIGHT HOTEL.

Mr. Bosomworth will conduct the services in the Methodist church on Sunday.

After making a trip into the Peace River country, B. Simmerman has returned to Wainwright.

A visit to Small's furniture store where there is now displayed a new stock of furniture will amply repay the home-maker.

Notification is given by Sherman D. Mills of the purchase by him of the coal interests formerly held by J. C. Shirley. Mr. Mills respectfully requests the patronage of the people of Wainwright.

### LOCAL PASTOR IS INDUCTED INTO MINISTRY

Impressive Ceremony Conducted In Presbyterian Church Tuesday Night

For the first time in the history of Wainwright, an ordination service was conducted here on Tuesday evening when Rev. Thomas Murphy, B. A., pastor of the Presbyterian church, was inducted into the Presbyterian ministry. The service, which was impressive, was attended by a large number of persons. It was conducted by the Presbytery of Vermilion, members being present in the persons of Rev. W. Simons, superintendent of missions, Rev. T. H. McPherson of Eiley, M. M. Zallznak, Vegreville and Rev. F. K. McGregor, clerk of the Presbytery, of Lamont.

Rev. Mr. McPherson preached a timely sermon to the minister in which he told of the opportunities confronting Mr. Murphy in his field of endeavor. To the people, Rev. Mr. Simons gave an address. He told them of their relation to the minister, that it was necessary for them to extend to him every sympathy in his work. At the conclusion of the service, Rev. W. Simons, expressed pleasure at the amount of interest taken in the ceremony by members of the congregation.

### NEW PASTOR IS CHOSEN FOR LOCAL METHODIST CHURCH

Rev. R. Kells Swenerton, M. A., B.D., for the past four years stationed at Bawlf, will be the permanent minister of the Grace Methodist church. Accompanied by Mrs. Swenerton and child, the new pastor will arrive in Wainwright some time next week to assume his new duties. The Rev. Mr. Swenerton is said to be an exceptionally good speaker and the possessor of many good points. It is anticipated that he will become popular in Wainwright.

### FIRST LEAF OF ANOTHER CHAPTER IS TURNED OVER IN ARRIVAL OF LOCAL VOLUNTEERS IN ENGLAND

It seems but a few days ago since Wainwright people assembled in the Elite theatre to honor the men of this community who had enlisted to take part in our Empire's battles. On Tuesday last these men, to whom the Daughters of the Empire had given small presents, to whom George I. Hudson, member of our constituency, had given words of inspiration, arrived in England. In a few more days they will be transported to France and within a few days following, will be sent further onward, to their final destination—the firing line.

Only a few brief weeks separate the events of today from the time our Wainwright boys were home doing their daily civilian duties. It does not seem but a day or so since we heard of the news of their enlistment. Yet, since that time they have undergone strenuous training in Edmonton, they have travelled from Alberta's capital to the sea-port, they have crossed the broad Atlantic and now they are in the Motherland. All this has happened in a few weeks. But such is the change of time and such the calling of war. Our boys carry with them the best of wishes from this town. We all hope they will return unscathed and victorious. But will they all return?

People here are now anxiously awaiting news from the Old Country to tell them of further developments. Whether or not our volunteers will undergo training in England or be transported for training in France, is a question. It is presumed, however, that they will occupy the English training grounds for several weeks and that at the conclusion of this training they will be sent into active service.

## GERMANY'S INFORMATION

C. W. Barron, of Wall Street Journal, Shows that Economic Reasons were Largely Responsible for the Outbreak of Hostilities. Many Problems in the East.

The Germans have a lot of letters for me to be found anywhere in the world. They know everything and understand everything. I have had a letter from Germany to gauge the soul of a nation such as that of the British Empire," said Mr. C. J. Barron, who gave his address before the Montreal Canoe Club.

Mr. Barron, who is head of the Wall Street Journal, the Boston News Herald and the Wall Street Journal Bureau, has had unequalled opportunity

That was a year ago. Germany's armies were on the march. That the most powerful nation in the world was to fight and she began to prepare for the struggle which she knew to be inevitable. But she was not yet ready. She had decided that the present was the right moment to strike.

According to her system of espionage she had been able to find out the eve of a break-up. Ireland was about to rebel, India was ready to secede, and the United States was about to be gobbled up by the United

[illegible]

merely used the assassination of an Austrian prince as a pretext. Although in the last analysis the ultimatum was not intended to be changed by the Kaiser, it was not impossible of fulfilment. Austria was exhausted by the war, and Austria and through them the Eastern Mediterranean also showed that a commercial treaty was not only forced on Russia during the Russian Revolution, but that Russia was forced to accept German goods to the detriment of her own economy at the bottom of the struggle between Austria and Russia.

It was not Austria to terminate the 1917

and when Russia a short time ago approached Germany in order to secure the right to export munitions to the East, she was emphatically told that the right to export munitions to the East must be continued, by Russia.

**Germans Need Copper**

Shells Are Being Gathered, and Recycled by Russia

How long will 5,000,000,000 cartridges last in a war of the size of the present one? How much copper has Germany on hand from which to make new cartridges for the infantry rifles and machine guns? How much copper for the shells of all sizes? Great Britain has declared copper contraband, and any country that is going to any port whence it might reach Germany. Other things might be contrabanded, but the supply of copper quits them the more they need it. Great Britain is reported to have had nearly 5,000,000,000 rifle cartridges on hand when war broke out, and any probable stoppage of men under arms, possibly more

**Canada's Fighting Force**

Through Dominion Is in the Fight to See it

"Our fathers taught us to submit to the tyranny of their own kings; their sons will not submit to the absolutism of a foreign king," said the speaker for democracy here earliest and most eloquently. "We have given our lives to secure their privileges, and their sons are worthy they will freely share ours."

The above words of Mr. N. W. Rowell, K.C., summed up his eloquent address before the Canadian Empire Club on "Democracy vs. Militarism." After comparing the conflict in Germany between the Kaiser and the people, he said that it was Oliver Cromwell who settled once and for all against the tyranny of kings to the satisfaction of the people.

The path of liberty for the German people lies in the overthrow of militarism, and the only path of l

reduced already to picking up the rear cases when it is feasible to do so. Trench fighting is particularly well adapted to this purpose, while from a machine gun the ejected cases are thrown so uniformly that a basket would catch practically all of them. The German cartridge cases are not proportionate number enlisted we would have at the present moment 350,000 to 500,000 men in training.

"What an inspiration it would be to the heroes in the trenches, to the mother country and all portions of our empire, and to those who are now

well adapted to being reloaded. The American government reloads the cartridges and the British government specifies that each case must stand two such reloadings without splitting the case at all. The British loads thousands of three cartridges are reloaded by the United States army and the British army has complete loaded cartridges cost 2½ cents, the case itself costs nearly 1½ cents, leaving of 60 per cent. through reloading.

**Two Appeals to Patriotism From Different Motives**

Finance Minister White has increased the tariff on practically all imported articles in order to secure the necessary revenue to conduct the public business of Canada. The organized

people would make to this appeal Canada is in this fight to see it through."—Toronto Globe.

**Occupation of Farming**

No Business Offers More Gain or Satisfaction Than Farming

Farming is no more desirable employment. No business offers so much opportunity for advancement as the master. The thoughtful farmer plants his own work and informs himself about the world. He is a man of the future. Farming is work that requires an investment of time and energy. In the past when a youth unified for anything is thought good enough for a farmer, the farmer has been a machine, the pure air and vigorous life of the farmer has been replaced by brick walls with only narrow openings from which he may get glimpses of the world.

is the right kind of patronage, we would suggest a letter at once to Sir Robert Borden, M.P. Prime Minister of Canada, Ottawa, or to Hon. W. T. White, minister of finance, Ottawa, and ask these gentlemen whether it would be more patriotic to purchase immigrant goods or Canadian-made goods. It is not necessary to have all the conveniences enjoyed by the dweller in the city and some luxuries unattainable by the city man. In farming there is a wide scope for ambition. There is opportunity for a man with bare hands and empty pockets to begin as laborer and attain a competence and position in which he

goods where prices and qualities are the same. We hope that several thousand of our overseas friends will have questions, and let us know what reply they feel necessary to give to the anti-Canadian and the situation must certainly be confusing to the Canadian people.

Far away, jerking into view, and dodging in and out of the clouds, were little momentary glows of fire, the flash of far guns; it was all there in the eye of the battle.

General Gibbon of Russia's Red Road to Berlin." But to the left, nearer the front, there was a flash of light showing each a red eye toward us.

Those fires? The weary officer glanced over to them. "That's where they are burning their dead."

"It is by the light of those fires that we shall see our road to Berlin."

He exchanged for the German representative in South Africa, has left for Russia to study trade conditions there on behalf of the Canadian government. Mr. Just expects to remain in Russia about four months.

1. *Chlorophyll a* and *Chlorophyll b* were determined by the method of Arar and Collins (1971) using a Shimadzu 1010 spectrophotometer. The concentration of chlorophylls was expressed in mg g<sup>-1</sup> of dry weight.

## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta and the Yukon territory, the Northwest Territories and a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be stated by the applicant. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton. The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year. The lease will include the coal mining right only, but the lessee may be permitted to purchase when the surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of the District.

W. W. CORY  
Deputy Minister of Interior

## LIVES WITH BULLET IN HEART

Among the many curious cases of wounds which have been investigated by the X-rays at St. Bartholomew's Hospital in London, is one in which a German bullet was found imbedded in the muscular part of a soldier's heart.

The radiographer who located the bullet said that it entered the man's left shoulder and burrowed downward. The amazing feature of the case was that after the soldier had been hit he walked for a mile and a half to an ambulance. He did not realize that he was wounded, he said, until he saw a few splashes of blood.

The bullet was not removed, and the man lived afterward.

This is by no means an isolated case of a man living, and even of following some occupation, with a foreign body in a vital spot. Two interesting radiographs in the laboratory at St. Bartholomew's Hospital illustrate this. One is of a German bullet imbedded in the right lung; it measures about one and a quarter inches long, and the delineation is perfect. The other shows a number of pieces of shrapnel in the skull cavity at the base of the eye underneath the brain. The shrapnel entered one side of the cheek and penetrated through to the other side.

When Poland Drank Hard Poland was a great country for hard drinking in the olden days. Its last King, Stanislaus II, was solemnly knighted by the Grand Hetman Branicki that he must never expect to be come popular unless he got drunk at least twice a week. Pan Komarzewski, who could empty a bucketful of beer in a draught without noticeable consequence, once in company with Pan Soszkiowski, High Chamberlain of Volhynia, disposed of whole butt of old Hungarian wine at the bung hole until it was filled and then drank while the other allies his beaker; and so, turn and turn about, they achieved the feat.

Tommy's Good Heart It is quite a common sight to see a homeless little child marching along beside its mother, munching a large slice of bread-and-jam, while the mother carries a tin of bully, beef, given to her by Tommy Atkins, said a letter written by Corporal Giles, R.A.M.C., to his mother. I have known numbers of men myself, included, who have gone without food for a day, or days, on purpose to cheer some homeless refugee. These people everywhere adore the British Tommy. Corporal Giles was decorated with the Distinguished Service Medal by King George personally.

London's Alien Enemies When the war broke out, and the registration of aliens was completed, there were no fewer than 4,566 alien enemies employed in the hotels of London.

The entire white population of the British Empire is less than the population of the German Empire, and rather larger than that of Japan.

## Edgerton

The tennis court has been completed and a number of interesting games have been played. It is expected that a club will be formed and a uniform fee be taken from all those wishing to join.

A new fence has been laid around the school grounds by Fisher and Annals and part of the grounds have been cleared for the boy's diamond. The boys have up to the present been handicapped by lack of playground and consequently feel extremely grateful to the school board.

The U. F. A. of this district contemplates holding a record day here on July 1st. Everything is being done by officers of the organization to make the day one grand success from start to finish.

Examinations will be held in the school commencing Monday and will include all grades from three to seven. Miss E. Milne and Miss E. Wigley will write on grade VIII examination at Wainwright during the same week.

An indication of the increasing interest and confidence of American investors in Canada is found in a recent newspaper statement that five years ago United States financiers purchased 15 per cent. of the Canadian bonds. This year United States financiers have taken 67.2 per cent. of Canadian bond issues.

## MONEY TO LEND

TO BE HELD IN

## Wainwright, July 12

**BAND COMPETITIONS, BASEBALL, HORSE RACING, ETC.**

A special train will be run from Mirror on the west and arrangements are now being made for a special train from the east which will in all probability, start from Biggar. Every arrangement possible is being made for the entertainment of the 3000 odd visitors who are expected to attend.

SIR JOHN JELICOE  
Commander of Britain's North-Sea  
fleet.

The STAR has received many orders for visiting and business cards during the past few weeks. New type was secured recently especially for this work.

Dave Corbett of Kinsella, a visitor to Wainwright reports encouraging crop conditions in the Kinsella district.

All members of the committee who have in hand arrangements for the 12th of July celebration, are asked to meet at the earliest possible moment so as to be in a position to present their reports at a general meeting to be called within the next few days. All are reminded that time must not be lost in the necessary preparations for the function.

The possibilities of sugar beet cultivation in the Edmonton district are to be fully tested by the Edmonton Industrial association. Samples of three varieties of sugar beet are being forwarded to the association for test purposes. The samples will be planted and cultivated under careful supervision, and from the results obtained the association hopes to determine the practicability of advocating beet cultivation on an extensive scale in the Edmonton district.

Lethbridge district reports fall wheat twenty inches high. Crop conditions are very satisfactory. There has been more rain at Lethbridge in May this year than for the same month in any season since 1900, and the present weather, warm sunshine interspersed with light showers, is ideal for growth. Alfalfa on irrigated land will be ready for the first cutting early in June. Sheepmen have had a favorable lambing season, the increase in some flocks running as high as 125 per cent.

The director of co-operative organizations in the Province of Saskatchewan has already received assurances that 15,500 fleeces of wool will be marketed this year co-operatively, as against a total of 10,000 last year. From present indications a price of 20 cents a pound is considered well within the range of possibility. Last year there was an advance of from 6¢ to 8 cents a pound in the prices realized by wool-growers over the prices of the previous year, and it is considered likely that 1915 will again show a substantial advance.

LOST—Bunch of keys. Return to Wainwright hotel and receive reward.

### USE OF ALCOHOLIC LIQUOR WILL NOT CEASE IN UNITED STATES

"It does not seem that there is any prospect that the use of alcoholic beverages will ever cease in the United States," says Harper's Weekly, and we do not believe in compulsory total abstinence for all people. It is not practicable, and we doubt if it would be beneficial. This opinion is not based on esteem for alcoholic beverages, or on the idea that they do people good. It is based merely on observation of the habits of mankind and on some reading. You cannot run a country on the lines of an infirmary, nor treat its population like patients who must be kept from drink at any cost, and whether they like it or not. An effort was made to do something like that in the army when the canteen was abolished. It has been a great failure and has helped very much to give our army the worst hospital record of any army in the civilized world. The most that can be done about drink, as we see the case, is to minimize its temptations, its manufacture and sale, favor the mild beverages rather than the stronger ones, and work out a more intelligent treatment for drunkenness and drunkards.—Adv.

### Kinsella

The United Farmers held a meeting on Saturday which was largely attended. An auction sale was held in aid of the patriotic fund and the popularity of this cause, was attested by the numerous donations of poultry, butter, eggs, etc.

Mrs. Milton Urstadt spent the week end with her mother Mrs. H. Richmond. Mrs. Bert Barker has been confined to her home with a very severe cold.

Now that spring work is all finished, our young people have been amusing themselves with a round of tennis parties.

A dance was held in the Echo school last Friday evening in aid of the baseball team. Mrs. H. Richmond and J. Brown acted as chaperones. The ladies however, who freely gave their time and labor to make the affair a success, were much disappointed in not getting the support of the community, the proceeds amounting to only a few dollars.

Richard Luxemborg of Ponoka spent last week at the home of his cousin, Mrs. H. Richmond.

Owing to illness, Mr. R. Snyder was unable to attend the weekly baseball practice. Hopes are entertained of seeing him around again soon.

Wainwright's "S" week will commence on Wednesday, June 23. Watch for later announcements.

The usual Intercession Service in the Church of England on Thursday at 7.30

### M. MECKLENBURG SIGHT SPECIALIST

**PALACE BILLIARD HALL**

## ARE YOU MEAN SPIRITED AND COWARDLY ??

Do you lack the nerve to face the man you hold a spite against?  
If so vote for the proposed Liquor Act.  
You can, through it, accuse the object of your spite with illegal liquor transactions. You are thoroughly protected. Your name need never be mentioned. (Read clause 44.) The object of your spite will be held guilty until he himself proves his innocence.

### The Proposed Liquor Act is full of Dangers

It means petty annoyances, petty persecutions, large financial losses, complete removal of any legislation controlling hotel accommodations.

It means class legislation, wholesale boot-legging, increased consumption of whiskey as compared to beer, loss of revenue, large sums sent annually to outside points with not one cent paid to the government.

It means dives, lawlessness and encouragement of underhand business and underhand methods.

It means that the intemperate has absolutely no protection against himself, at all.

Ask any fair-minded temperance man if these things are not true. Do not ask a crank for his eyes are turned inward and they see only a self-made mental structure which he admires because he made it himself. He sees Prohibition.

## THE PROPOSED LIQUOR ACT DOES NOT MEAN PROHIBITION

FOR SALE—Heavy draft team—mare and gelding, 7 years old. No further use for same. Will sell cheap for cash or take cattle in exchange. Apply Star office or J. G. Morton, S. E. 1/4 20-45-6. 7-9p
